This year as well EXE is taking part in the "Carioca" tournament ([www.carioca.biz](http://www.carioca.biz)). But, we decided to support not only the EXE SENEGAL team, but all the tournament. Together with other most renewed companies, we are one of the official sponsors of the awesome "Carioca" tournament.

2007.06.28 EXE opens its first branch abroad: EXE Company.ro (<http://www.exeromania.ro/>) is born, the new Romanian company that will operate in a new market full of opportunities, the Romanian one.

We wanted to promote our activities in a special way and when the opportunity arose we did not miss it.

We decided to sponsor a Senegalese team in the most important "seven-a-side" amateur soccer tournament in Sardinia, the "Carioca" tournament ([www.carioca.biz](http://www.carioca.biz)). It was a unique occasion and a great publicity opportunity, but we feel it was also in line with our professional and personal values.

It was without doubt an important tournament, which brought together old stars and young talent from Sardinian soccer, as well as the island's footballing hero and sporting ambassador, Gianfranco Zola.

The idea of contributing, even in a minor role, to a true form of social integration through sport, was the real driving force behind our involvement in this initiative.

And the results tell us we are right. EXE SENEGAL is always among the highest ranking teams, and despite starting out as an outsider, the team has now become a reality to be taken seriously by even the strongest opponents.
