

I nostri obiettivi

EXE carries out its activity pursuing the following targets:

Â

- To place humans once again at the centre of economic activity, reconsidering their real inner and interpersonal needs, to regain possession of a model of sustainable exploitation of the environment and its renewable resources;
- To support the development of technologies by using renewable energy sources;
- To spread the culture of a conscious and rational use of energy and water, reducing any wastes to minimum levels;
- To radically change the energy market, for the growth of an energy system based on a diffused production of energy, respecting the peculiarities of the environment and exploiting all the local potentials.

Â

WE WANT TO HELP CREATE A SUSTAINABLE FUTURE AND A CLEANER ENVIRONMENT FOR THE NEW GENERATIONS
